

The HAD Bibliography, New Series.

Bibliography of English Language Publications on the History of Astronomy, 2003-2004.

Compiled by Peter Abrahams, abrahams.peter@gmail.com

Omitted are: obituaries, juvenilia, popular accounts, internet publications, book reviews, and space exploration.

Foreign language entries will be included in future bibliographies; these require a fluent collaborator.

Book listings are incomplete, and a method is sought for systematically locating titles. Publishers, librarians, and interested persons are welcome to participate.
